

Packaging, POP & Signage

from The Garvey Group

Point of Purchase.

The Garvey Group offers a wide range of services to the POP/POS manufacturing industry. Not only does our Rapida 162A press print large format (up to 47" x 64") 6-color litho labels and top sheets, but we have the capability to print on a wide variety of stocked substrates, as well as approved plastics including vinyl, styrene, PETG, co-polyster and Lexan.

The list at right shows a small sampling of our die cutting, folding and gluing equipment—installed to serve the needs of our POP/POS clients. Ask your Garvey Group representative for more information on how our POP production experts can help you fulfill your next order with greater speed, quality control and cost efficiency.
